KADARI KOUSHIK REDDY

7671898733 kaushikkadari456@gmail.com kaushik-kadari kaushik-kadari Leetcode

Summary

Motivated software engineering fresher with hands-on experience in developing projects using machine learning, Retrieval-Augmented Generation (RAG), and the MERN stack. Skilled in implementing advanced AI solutions and full-stack web development. Eager to contribute to innovative projects and collaborate with dynamic teams in an internship role.

Education

Keshav Memorial Institute of Technology, Hyderabad **2022 - Present**
B.Tech in Information Technology *9.58 CGPA*

Sri Chaitanya Junior College, Hyderabad **2020 - 2022**
Maths Physics Chemistry (MPC) *98.4 %*

Lotus High School, Jadcherla **2020**
Secondary School Certificate (SSC) *10 GPA*

Experience

Defence Research & Development Laboratory (DRDL) **June 2024 – Present**
CUDA Programming Intern *Hyderabad, Telangana*

- Optimized sequential code to parallel code using CUDA, enhancing performance and efficiency.
- Implemented and tested CUDA kernels, achieving significant speedup in computational tasks.
- Conducted performance analysis and debugging of CUDA applications to ensure optimal functionality.
- Collaborated with development teams to integrate CUDA-optimized modules into larger software projects.

Projects

Registration_Info_LLM | *Python, React, Flask* **March 2024**

- Developed a customized LLM component for the Registration Department's service platform, serving as the first point of contact for citizens.
- Utilized Retrieval-Augmented Generation (RAG) to enhance the accuracy and relevance of responses.
- Conducted extensive testing and debugging to ensure the reliability and performance of the LLM component.
- Continuously monitored and updated the LLM to improve response quality and adapt to changing requirements.

AI/ML powered chatbot for Namami Gange project | *Python, Flask, Javascript, HTML, CSS* **October 2023**

- Created an AI, MLPowered Chatbot , interactive mascot (Chacha Chaudhary) and digital avatar to raise awareness and disseminate information about the Namami Gange Programme to school children.
- Integrated the chatbot with multiple communication platforms including social media, web portals, and mobile applications.
- Conducted user testing and feedback sessions to iteratively improve chatbot functionality and user experience.
- Designed an engaging user interface that appeals to children and encourages interaction with the chatbot.

Bankist_Services | *Javascript, HTML, CSS* **March 2023**

- Developed a web application to provide basic bank services for users. Designed and implemented user-friendly interfaces for account management, transactions, and other banking functionalities.
- Ensured responsive design and Integrated security features to safeguard user data and transactions.
- Developed a comprehensive banking application with features including account management, transaction processing, and loan management.

Technical Skills

Languages: Python, Java, C, C++, Javascript, HTML/CSS
Frontend: React, Bootstrap, HTML, CSS
Backend: Flask, Node.js, Express.js
Databases: MongoDB, MySQL
Technologies/Frameworks: Linux, GitHub
